ESPECIFICATIONS

Mobile dates calendar in which the user determines their final layout and the calendar design.

It is composed out of 432 injected white ABS magnetic pieces (366 days of the year + 52 week numbers + 14 days of the week pieces) and a white lacquered metal panel available in two different sizes (100x60 and 100x120).

The calendar can be reused yearly.

The colour progressions of the pieces is associated with the change of seasons.
